SUMMARY

Mobile developer with 6+ years of Flutter experience, specialized in fintech and digital banking. Currently on the Mobile Core team at ueno bank, building the technical foundation used by 40+ microapps. Focused on modular architecture, scalability and production releases.

EXPERIENCE

Software Engineer — Mobile Core

Aug 2025 – Present

itti · ueno bank (Paraguay) · Remote

- Build core mobile features and components consumed by 40+ microapps, integrated as packages into the main app.
- Own the release and deployment of ueno bank to the App Store and Google Play.
- **Native real-time feature flags:** changes reach users in ~1 second, down from up to 24 hours with Firebase Remote Config.
- **AI-powered What's New generator:** scans every microapp project, analyzes its changes and writes release notes for each section of the app.

Semi-Senior Flutter Developer

Aug 2024 – Aug 2025

OneInfo Consulting · Hybrid

- Developed and maintained one of Argentina's most widely used digital wallets, plus an internal app for the same client.
- Shipped releases to the App Store and Google Play.

Freelance Flutter Developer

Jan 2024 – Aug 2024

International clients · Remote

- Maintenance, bug fixing and new features for Billetero (European crypto wallet) and US projects through 52six.
- Integrated Firebase Analytics.

Mobile Developer

Sep 2019 – Jan 2024

Miiii · Nordelta, Argentina

- Grew from IT Trainee to mobile team lead (2022), mentoring 2 interns.
- Built in-house and client apps end to end in Flutter.
